Dear Dave,

If you've not mailed me a copy of the Roger letter you referred to Sunday please do, along with any other communications you've had with him on the subject of Sylvia's papers and if you have any correspondence with Greg on it, that, too please.

Roger is threatening suit to get Sylvia's will nullified and to make other trouble including the allegation that I and others unnamed exerted undue influence on him.

I had a call from the college lawyer this morning.

I'd like to be as fully informed as possible so that in turn I may be as informative as possible to the college lawyer.

Best,

Harold
